By Living Green

Cleanse your space, relax have a positive state of mind. Choose new, unused candles, and do not use the ones you choose for any other purpose. Make sure your space is quiet, except if you want to use soft music.

Give the candle some of your personal vibrations. This will give the wax your thoughts, desires and your life force. You can also use an essential oil on the candle. The energy from your hands will pass into the wax. Always start rubbing the oil from the top to the bottom when anointing a candle. Then go from bottom up to the center of the candle. While you are oiling the candle think about what you want to accomplish. Visualize success and see your desires accomplished.
